**Young Brothers Inter-Island Barge selects Advent for system**

**Murray Hill, NJ** - Young Brothers has turned to Advent to provide them with a system to manage their operations in the Hawaiian Islands.

The system, a hybrid application, will handle both the commercial and terminal aspects of their business. Because of the flexibility of their product suite, Advent is able to bring these traditionally separate systems into one unique, umbrella application enabling Young Brothers back office and terminal facilities to operate seamlessly.

Young Brothers, the lifeline of the Hawaiian Islands, provides inter island shipping services of goods, vehicles, ro-ro and containerized cargos. They serve the ports of Oahu, Maui, East Hawaii, West Hawaii, Kauai, Molokai and Lanai.

Founded in 1995, Advent Inc. is a leader in delivering information technology solutions for the transportation industry. Advent's vast experience includes the development of global operating systems for multi-national ocean carriers, complete management systems for terminal operators, innovative transportation web sites, and transportation consulting services.
